Hero - Alan Walker

Been here before It's in my muscle memory, I'm pretty sure I recognize you, There is something in your eyes Won't let you get away tonight You leave me in the dark I'm stumbling around like I'm a question mark Wondering if you're around To catch me if I fall If I come crashing to the wall Will you light me up Jump start my heart I need someone Before the sun goes down Who's gonna save me now Some kind of hero I can't breathe Hoping you're here To rescue me Before the sun goes down Who's gonna save me now Some kind of hero Been here before It's in my muscle memory, I'm pretty sure I've felt this energy, There's something in your touch Something reminding me of us Will you light me up Jump start my heart I need someone Before the sun goes down Who's gonna save me now Some kind of hero I can't breathe Hoping you're here

To rescue me

Before the sun goes down Who's gonna save me now Some kind of hero Some kind of hero
