And You My Love - Chris Rea

I do not sleep tonight
I may not ever
The sins of the past have come
See how they sit down together

Outside my window Outside my door And I know the reason what they've all Come here for

You my love My sweet, sweet love Are what it's all because of

Surrender is easy I know you do me no harm But your innocence haunts me The most fatal of charms

Oh I must have done some wrong On a dark and distant day For I know full and well tonight This is how that I must pay

And you my love
My sweet, sweet love
Are what it's all because of
Oh, You my love
My sweet, sweet love
Are what it's all because of

And you my love
My sweet, sweet love
Are what it's all because of
Oh, You my love
My sweet, sweet love

Are what it's all because of

And you my love
My sweet, sweet love
Are what it's all because of
Oh, You my love
My sweet, sweet love
Are what it's all because of,
