

# We're Good – Dua Lipa

I'm on an island  
Even when you're close  
Can't take the silence  
I'd rather be alone  
I think it's pretty plain and simple  
We gave it all we could  
It's time I wave goodbye from the window  
Let's end this like we should  
And say we're good  
We're not meant to be  
Like sleeping and cocaine  
So let's at least agree  
To go our separate ways  
Not gonna judge you when you're with  
Somebody else  
As long as you swear  
You won't be pissed when I do it myself  
Let's end it like we should  
And say we're good  
No need to hide it  
Go get what you want  
This won't be a burden if  
We both don't hold a grudge  
I think it's pretty plain and simple  
We gave it all we could  
It's time I wave goodbye from the window  
Let's end this like we should  
And say we're good  
We're not meant to be  
Like sleeping and cocaine  
So let's at least agree  
To go our separate ways  
Not gonna judge you when you're with  
Somebody else  
As long as you swear you won't be pissed  
When I do it myself

Let's end it like we should  
And say we're good  
Now you're holding this against me  
Like I knew you would  
I'm trying my best to make this easy  
So don't give me that look,  
Just say we're good  
We're not meant to be  
Like sleeping and cocaine  
So let's at least agree  
To go our separate ways  
Not gonna judge you when you're with  
Somebody else  
As long as you swear  
You won't be pissed when I do it myself  
Let's end it like we should  
And say we're good
