Out of the darkness – My Indigo

When the day turns to night
And you run out of candles to burn
And you cant't find a light
You're not alone
You're not alone

When the walls are too high
That I've built up inside
And the wolves are outside my door
You take me home
You take me home

See the bluebirds flying high
So I'm wondering down below
Could I
Could I

Out of the darkness
Woohoo ohoo
We came running
Out of the darkness
We came running

Leaving all our ghosts and our hurt behind
Leaving that bag of stones behind
In the darkness
Woohoo ohoo
We keep running

There's a need to believe
So we dwell on our dreams
And somehow we forget to live
But you wake me up
You wake me up

See the clouds rolling in

And we know what they'll bring
And the fears crawling down your spine
Calling your name
It's calling your name

See the bluebirds flying high
So I'm wondering down below
Could I
Could I

Out of the darkness
Woohoo ohoo
We came running
Out of the darkness
Woohoo ohoo
We came running

Leaving all our ghosts and our hurt behind
Leaving that bag of stones behind
In the darkness
Woohoo ohoo
We keep running

Leaving it all
Leaving it all
Behind

Out of the darkness
Woohoo ohoo ohoo
Running
Out of the darkness

Out of the darkness
Woohoo ohoo
We came running
Out of the darkness
Woohoo ohoo
We came running

Leaving all our ghosts and our hurt behind

Leaving that bag of stones behind
In the darkness
Woohoo ohoo
We keep running

Out of the darkness
