## Swanheart – Nightwish

All those beautiful people I want to have I want to have them all All those porcelain models If only I could make them fall Be my heart a well of love Flowing free so far above A wintry eve Once upon a tale An Ugly Duckling Lost in a verse Of a sparrows carol Dreaming the stars Be my heart a well of love Flowing free so far above In my world Love is for poets Never the famous balcony scene Just a dying faith On the heaven's gate Crystal pond awaits the lorn Tonight another morn for, The lonely one is born
