One last dance – R5

Tear drops in your hazel eyes I can't believe I made you cry It feels so long since we went wrong But you're still on my mind Never meant to break your heart Sometimes things just fall apart So heres one night to make it right Before we say goodbye So wait up, wait up Give me one more chance To make up, make up I just need one last dance Freshman year I saw your face Now its graduation day Said we'd be friends, till the end Can we start again? So wait up, wait up Give me one more chance To make up, make up I just need one last dance Na na na oh-oh Na na na na oh-oh I heard you're heading east So lets just make our peace So when you think of me You'll smile, and I'll smile So wait up, wait up Give me one more chance To make up, make up I just need one last dance So wait up, wait up Give me one more chance Just one song, then I'll move on Give me one last dance I just need one last dance with you Oh-woah
