

Constellation Prize – Robin Bengtsson

Listen

I should have told you long ago
That you glisten
Ooh more than he will ever know
If he can't see what I have always seen
Then something isn't right
He hasn't seen at all
That you are beautiful
I'm breaking down the wall
You're a star
But now I'm about to fall
Because you are
Cause you are
Beautiful
Beautiful
Babe
I'll take you higher
Than a star could ever go
Let's make fire
Ooh now your heart begins to glow
Maybe I'm just dreaming
That you let me be your
Constellation prize
He hasn't seen at all
That you are beautiful
I'm breaking down the wall
You're a star
But now I'm about to fall
Beacause you are
Cause you are
Beautiful
Beautiful
Babe
He hasn't seen at all
That you are beautiful
I'm breaking down the wall

You're a star
But now I'm about to fall
Because you are
Cause you are
Beautiful
Beautiful
Your constellation prize
Constellation prize
He hasn't seen at all
You are beautiful
Cause you are
Cause you are
Beautiful
Beautiful
Cause you are
You are
Beautiful
Beautiful
