# Saved my life – Sia

Boom, boom, boom
Beats my heart, heart, heart
Baby, boom, boom, boom
In the dark, dark, dark
Baby, boom, boom, boom
Fall apart-part-part
Baby, boom, boom, boom
From the start, start, start
But I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
Yeah, I've been waiting for you
Well,
Someone must have sent
You here to save my life
Someone must have sent you to save me tonight
I know that in darkness,
I have found my light
I know that in darkness,
I've been given sight
In your loving arms, I feel delight
In your loving arms, I'll be alright
Someone must have sent you to save me tonight
Someone must have sent
You here to save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
High, high, high
We take flight, flight, flight
Baby, high, high, high

Touch the sky, sky, sky
Baby, high, high, high
Diamond nights, nights, nights
Baby, high, high, high
'Cause love don't lie, lie, lie
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
I've been waiting for you
Well, someone must have
Sent you here to save my life
Someone must have sent you to save me tonight
I know that in darkness,
I have found my light
I know that in darkness,
I've been given sight
In your loving arms, I feel delight
In your loving arms, I'll be alright
Someone must have sent
You to save me tonight
Someone must have sent
You here to save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
Save my life, save my life
Save my life, you saved my life
