## Soon We'll Be Found – Sia

Come along it is the break of day Surely now, you'll have some things to say It's not the time for telling tales on me

So come along, it won't be long 'Til we return happy Shut your eyes, there are no lies In this world we call sleep Let's desert this day of hurt Tomorrow we'll be free

Let's not fight I'm tired can't we just sleep tonight? Turn away it's just there's nothing left here to say Turn around I know we're lost but soon we'll be found

Well it's been rough but we'll be just fine We'll work it out yeah we'll survive You mustn't let a few bad times dictate

So come along, it won't be long 'Til we return happy Shut your eyes, there are no lies In this world we call sleep Let's desert this day of hurt Tomorrow we'll be free

Let's not fight I'm tired can't we just sleep tonight? Turn away it's just there's nothing left here to say Turn around I know we're lost but soon we'll be found

Let's not fight I'm tired can't we just sleep tonight? Don't turn away it's just there's nothing left here to say Turn around I know we're lost but soon we'll be found

Let's not fight I'm tired can't we just sleep tonight? Turn away it's just there's nothing left here to say Turn around I know we're lost but soon we'll be found

I know we're lost but soon we'll be found [3x]
