

# Castaway – 5 Seconds of Summer

Young love, close the chapter  
There's no ever after  
Fell fast, ended faster, yeah  
Late night conversations  
Led to complications  
Now my heart is in my hands

Cause you walked out and left me stranded  
Nothing left but picture frames  
And I just keep on asking myself

How'd we drift so far away  
From where we left off yesterday?  
I'm lonely like a castaway  
Heartbreak that I can't escape  
A sinking ship I'll never save  
I'm lonely like a castaway

All your screaming whispers  
Slip right through my fingers  
But these memories linger on  
Eyes closed, all I see is  
Good times disappearing  
And I'm trying to hold on

Cause you walked out and left me stranded  
Nothing left but picture frames  
I just keep on asking myself

How'd we drift so far away  
From where we left off yesterday?  
I'm lonely like a castaway  
Heartbreak that I can't escape  
A sinking ship I'll never save  
I'm lonely like a castaway  
Castaway
