## **Castaway – 5 Seconds of Summer**

Young love, close the chapter There's no ever after Fell fast, ended faster, yeah Late night conversations Led to complications Now my heart is in my hands

Cause you walked out and left me stranded Nothing left but picture frames And I just keep on asking myself

How'd we drift so far away From where we left off yesterday? I'm lonely like a castaway Heartbreak that I can't escape A sinking ship I'll never save I'm lonely like a castaway

All your screaming whispers Slip right through my fingers But these memories linger on Eyes closed, all I see is Good times disappearing And I'm trying to hold on

Cause you walked out and left me stranded Nothing left but picture frames I just keep on asking myself

How'd we drift so far away From where we left off yesterday? I'm lonely like a castaway Heartbreak that I can't escape A sinking ship I'll never save I'm lonely like a castaway Castaway Castaway

How'd we drift so far away From where we left off yesterday? I'm lonely like a castaway

How'd we drift so far away From where we left off yesterday? I'm lonely like a castaway Heartbreak that I can't escape A sinking ship I'll never save I'm lonely like a castaway Castaway Castaway
