

Take Me Back – 80s Love Song

We didn't count a passing days
We didn't chase the time
Just empty roads and open skies
And everything felt right
Old snickers on the dusty street
The sun upon our skin
We thought the world is somewhere far
Not no we where in
No heavy thoughts no look in back
No need to understand
Take me back when it was simple
When the nights will never end
When the music felt like magic
And the world i just our friend
Nothing pooling on our sholders
No tomorrow left to fear
I still find that quiet feeling
Somehow is still here
We talk about the smallest things
Like thay will something big
And every lough we didnt plan
We're always have to give
Take me back when it was simple
When the nights will never end
When the music felt like magic
And the world i just our friend
Maybe nothing really wanished
Maybe it just change this place
Take me back when it was simple
I still feeling in my wains
In the silence in the sunlight
In the echoes that remain
