

There's Never a Forever Thing – A-Ha

... Dearest, close your eyes now
Don't you cry
It's all right
Lie back, leave the lights on
It's all right, dear
... I'll be here through the night
With you till the first signs of light
Say the word and I'll come tonight
... It's all right now
Don't you cry now
Hush
Wipe your tears away
There's never a forever thing
... All through the night
I'll try so hard to be there somehow
With you till the first signs of light
Say the word and I'll come
Tonight
... Darling, don't you cry
