

# Princess of the Dawn – Accept

There's rain on the mountain  
A white frost on the moors  
It's an epoch of eternity  
Waters touch the holy shore  
It's a land of mystery  
The world of unseen eyes  
You can feel the shadow of a princess  
She waits for you inside  
The guardians of God play the pawns  
Beg for mercy - hail the queen  
Princess of the Dawn  
In the war of the dragons  
Young blood ran its course  
They fell into his blade  
The knight Iron Horse  
A forgotten priest  
Disappearing in the haze  
A chamber of vestal virgins  
Twilight is her slave  
The Wizard of Oz moved the pawns  
Life for Satan - dust to dust  
Princess of the Dawn  
On the day of the testament  
The seventh moon was raging fire  
Heaven cried for the sacrifice  
The midnight sun was rising higher  
The Beauty and the Beast  
Lies in her royal crypt  
Her kiss is bitter sweet  
Death upon her lips  
The Holy Grail held the pawns  
Kings and bishops bow to grace  
Princess of the Dawn  
The guardians of God play the pawns  
Beg for mercy - hail the queen  
Princess of the Dawn

A new day dawns for heaven and earth  
A first sunbeam is killing the night  
Once upon a time for ever more  
The gloom with the spirit  
Of that lady in white
