Welcome to the show – Adam Lambert

You know I have a veil
All covered up to myself
It's always there now they wanna know how does it feel?
Gonna let it show, I'm happy to
Entertain and share with you
It's hard to say how your own thoughts can hurt you

I'm gonna let them stare
They feel like me out there
So welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonight

Welcome to the show
Welcome to my life
Welcome to the show
Welcome to my life
Welcome to my life

I know I have my flaws
I've paid the price, but I'm grateful
You're letting me be myself
The good and the bad

I'm gonna let them stare
They feel like me out there
So welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonight

Welcome to the show
Welcome to my life
Welcome to the show
Welcome to my life

Welcome to my life
Welcome to my life
My life
My life

I´m gonna let them stare
I´m gonna let you in
I'm gonna let them in
They feel like me out there

So welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonight

Welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonight

Welcome to the show
Welcome to my life
Welcome to my life
Welcome to my life

My life...life
