

# All night parking – Adele

I know you've got things to do (I do too)  
I just want to spend all my time with you  
(feels so good)  
I'm so hard to impress  
Don't leave me on this stretch alone  
When I'm out at a party  
I'm just excited to get home  
And dream about you  
All night long  
I don't know how you got through to me  
(I'm so cold)  
It's all happening so easily  
(like, "Oh my God")  
It's so hard to digest  
Usually, I'm best alone  
But every time that you text  
I want to get on the next flight home  
And dream next to you  
All night long  
Maybe it's the way you remind me of  
(where I come from)  
Or how you make me feel beautiful  
(and then some)  
The sight of you is dramatic  
One glimpse and I panic inside  
I get lost in our hours  
'Cause you possess powers I can't fight  
That's why I dream about you  
All night long  
All night long  
All night
