

# Icebreaker – Agnete

Every night  
Before I sleep, a shiver down my spine  
Thoughts alight  
What can I do to make you listen?  
Like a northern light  
You're dancing over every borderline  
Passing every sign  
Between reality and fiction  
Every single promise that you ever made  
Spinning in my mind like a hurricane  
Baby, as I hear your mayday  
Mayday  
I'll be your Icebreaker  
When you're stuck in frozen water, frozen water  
Icebreaker  
When you're stuck in frozen water, frozen water  
You go astray  
Just like a polaroid, you fade away  
I'll be your partner  
And liberate you from your prison  
Baby, as I hear your mayday  
Mayday  
I'll be your icebreaker  
When you're stuck in frozen water, frozen water  
Icebreaker  
When you're stuck in frozen water, frozen water  
We're too young to say goodbye  
Whenever you lose faith just hold the line  
It takes a lot of nerve to save a life...  
Icebreaker  
When you're stuck in frozen water, frozen water  
Icebreaker  
When you're stuck in frozen water  
Ah...  
Frozen water
