

Hope – Agnieszka Zareba

I feel very lonely
I have broken heart
He was one and only
Now i'm in the dark
No one hears my cry
I can't find a gap
I'm looking for some light
It's like a fucking trap
How to turn back all this bad time
How to make you be mine by night
Where
When
Help
Stay
I need to find new hope
I need to find new love
Let someone drop the rope
I must rise above
So lonely in the crowd
Still hide my real face
I have to shout out loud
Take me to better place
How to turn back all this bad time
How to make you be mine by night
