

Who loves you – Alannah Myles

I send a message to you
I close my eyes and hope it gets through
It's in the language of love
It's in your touch, there in your mouth

I wonder if you hear me tonight
Sometimes you're so far away
I wanna have you near me tonight
Do you belong to me

Who loves you, who you gonna run to
Who loves you, what you gonna do about it
Who loves you, who you gonna run to
Who loves you, what you gonna do about it now

So tired I can't fall asleep
I close my eyes and breathe in the heat
I've got this passion for you
Like inspiration out of the blue

I wonder if you hear me tonight
Sometimes you're so far away
I wanna have you near me tonight
Do you belong to me

Who loves you, who you gonna run to
Who loves you, what you gonna do about it
Who loves you, who you gonna run to
Who loves you, what you gonna do about it now

Who loves you, who you gonna run to
Who loves you, what you gonna do about it
Who loves you, who you gonna run to
Who loves you, what you gonna do about it

Who loves you, who you gonna run to

Who loves you, what you gonna do about it
Who loves you, who you gonna run to
Who loves you, what you gonna do about it now
What you gonna do about it now

I send a message to you
I close my eyes and hope it gets through
