

# Catching Fire – Alex Hoyer, Maia Reficco

Like a bottle rocket shooting to the sky  
Or Halley's comet going on a ride  
There is no way I'm stopping  
'Til the stars align ('til the stars align)  
Like a constellation lighting up the night  
You're the inspiration  
Yeah, you breathe life into my creation  
And you make it shine (and you make it shine)  
Strike up a match  
Watch it ignite  
You are the spark and I'm  
Catching fire  
I'm burning up  
I'm burning up  
Fire  
I'm burning up  
I'm burning up  
Starting something great  
Only takes an ember  
Once you fan the flame  
It can last forever  
Catching fire  
Fire  
I'm catching fire  
Now that I got it, I won't let it go  
Get the key and lock it and watch me glow  
Now think and top it  
It's the greatest show  
(it's the greatest show)  
Like a chain reaction  
When I realize anything can happen  
Look it in your eyes more than I imagine  
Like the novel light (like the novel light)  
Strike up a match  
Watch it ignite  
You are the spark and I'm

Catching fire  
I'm burning up  
I'm burning up  
Fire  
I'm burning up  
I'm burning up  
Starting something great  
Only takes an ember  
Once you fan the flame  
It can last forever  
Catching fire  
Fire  
I'm catching fire  
Watch me burn  
Brighter than a firework  
Brighter than the sun  
On the brightest day (on the brightest day)  
You're the spark  
Anytime I'm in the dark  
You will light the way  
Yeah, you will light the way  
Catching fire (it's catching fire)  
I'm burning up  
I'm burning up  
Fire (yeah)  
I'm burning up  
I'm burning up  
Starting something great  
Only takes an ember (takes an ember)  
Once you fan the flame  
It can last forever  
Catching fire  
Fire (catching fire)  
Catching fire  
I'm catching fire
