

Empires (wersja Eurowizyjna) – Alicja Szemplińska

Ashes to ashes dust into dust
I'll follow you through black
Try to forgive that I'm not awake
I'm Dreaming this dream could last
No looking down
There's fool's gold in our eyes
Burning an empire
Happens so easy
Playing whit fire
Maybe it's you and me
Burning an empire
Is our fault we
Rise and fall
Like moth to the flame
Like birds to a pane of glass
Hoping for change but we do the same
We're gasoline and a match
No looking down
There's fool's gold in our eyes
Burning an empire
Happens so easy
Playing whit fire
Maybe it's you and me
Burning an empire
Is our fault we
Rise and fall
We just want it all
Used to be a tower so tall
Now we're only crumbling walls
We rise and fall
Moth to the flame as we do the same
Like birds to a pane of glass
Down to the wire
Empire fall
