Empires (wersja Eurowizyjna) – Alicja Szemplińska

Ashes to ashes dust into dust

I'll follow you through black

Try to forgive that I'm not awake

I'm Dreaming this dream could last

No looking down

There's fool's gold in our eyes

Burning an empire

Happens so easy

Playing whit fire

Maybe it's you and me

Burning an empire

Is our fault we

Rise and fall

Like moth to the flame

Like birds to a pane of glass

Hoping for change but we do the same

We're gasoline and a match

No looking down

There's fool's gold in our eyes

Burning an empire

Happens so easy

Playing whit fire

Maybe it's you and me

Burning an empire

Is our fault we

Rise and fall

We just want it all

Used to be a tower so tall

Now we're only crumbling walls

We rise and fall

Moth to the flame as we do the same

Like birds to a pane of glass

Down to the wire

Empire fall
