

Hello, Brooklyn – All Time Low

This city, so pretty
Under moon-lit skies we'll be hangin' like a cigarette
So stunning, start running
Tonight's like a knife, would you cut me with your kiss

I bleed, red lips, your unbelievable
Can't miss this chance to take you out
Here's my invitaion (invitation)

Hello Brooklyn, hey LA
Take the streets all night cause we sleep all day
When the world comes crashing down, who's ready to party?
Hello Brooklyn, Hey LA
Coast to coast, I'll take you down in flames
Let the good times roll, we can let go
Cause everybody knows there's a party at the end of the
World

Woah oh, woah oh, woah oh, oh(x2)

This city was your city
Heels on the sidewalk begging for a back-beat
Don't worry, I fight dirty
Tonight's like a right hook, knock you off your feet

I'll be yours truly unbelievable
Can't miss this chance to take you out
Here's your invitation (invitation)
