## Bad Ideas - Alle Farben

Lied to my face I'm losing track of every tongue that I taste It's like the whole world is upside down Can't even tell if this is real right now Heads in the sky We're gonna fly around with Flames in our eyes Just gonna laugh about it all night long Somebody's gonna have to carry me home Bad ideas make the best memories Even if you don't remember, don't remember, Don't remember, oh Bad ideas make the best memories Even if you don't remember, don't remember, Don't remember, oh Lung's coming up Can't even think about it Dreams in a cup Just wanna dance about it, lose our minds Just wanna dance about it, lose our minds Lied to my face I'm losing track of every tongue that I taste Just wanna laugh about it all night long Somebody's gonna have to carry me home Bad ideas make the best memories Even if you don't remember, don't remember, Don't remember, oh Bad ideas make the best memories Even if you don't remember, don't remember, Don't remember, oh Bad ideas make the best memories Even if you don't remember, don't remember, Don't remember, oh Bad ideas make the best memories Even if you don't remember, don't remember,
