

Black Eye – Allie X

Something bad
Coming this way darling
Don't look back
With everyone
Keep your eye on the path
Or it'll drive you mad
The world goes around
Makes me dizzy but I
Hold my ground
When I get nauseous I just
Gag it down
Pound for pound
I gag it down
I gag it down
Oh, hit me, hit me with that super pain
'Cause a hit feels like
I'm dancing in the rain
Give me that beat
There's no need to cry
It's just a black eye, yeah
Hit me, hit me with that super bass
'Cause I want tonight to slap me in the face
Give me that beat
There's no need to cry
It's just a black eye, yeah
Something bad
Already happened
Does that make you sad?
I'm gonna burn it
'Cause I don't get mad
I'm a modern dog
Collar crime
Year on a leash
It makes a nasty mind
I'm sorry Mr Fister
If I bite

It's just spite
I will bite
I will bite
Oh, hit me, hit me with that super pain
'Cause a hit feels like
I'm dancing in the rain
Give me that beat
There's no need to cry
It's just a black eye, yeah
Hit me, hit me with that super bass
'Cause I want tonight to slap me in the face
Give me that beat
There's no need to cry
It's just a black eye, yeah
Oh, yeah
No need to cry
It's just a black eye
Oh, oh
There's no need to cry
It's just a black eye
Black, black, black eye
Give me a black eye
Just a black eye
Little baby, just dry your tears and say
A black eye never goes away
