

# Love Injected – Aminata

You bring the light to my darkest side, babe  
The day, the night split to cure the sight, ooh  
You care, you animate  
You guard me bare, bring up the heart rate  
Your love revives my soul  
And I know you choose it whole over all  
Your eye's a good mirror  
Look under the cover  
Love is above all  
I'm safe into your hands  
Let's move away, the edges expand  
Your love revives my soul  
And I know you choose it whole over all  
Show me the source of the light  
I'm becoming affected  
Seeing the glow of a white  
Is what I have detected  
Feeling again I'm alive  
It's a shining reflected  
Love injected, love injected  
Your love revives my soul  
And I know you choose it all over all  
Your love revives my soul  
And I know you choose it all over all
