

Nathalie – Anders & Fahrenkrog

It's in the way (that) you talk
In the way (that) you walk
See the fire is in your eyes
(Your) Every look is a tease
You got me begging
You please
All I want is to make you mine
Come a little closer,
I want you tonight
Girl give into the beat
Nothing is forbidden
In loves disguise
You've got me on my knees
Nathalie (can't you see)
What you're doing to me
Run for cover, give me shelter
Natalie (can't you see)
You are all that I need
Be my lover, undercover
So if you want me come
And get me
I'll be your shelter
From the storm
Promise that you
Will stay forever
We belong together,
It is now or never
And when you move to the beat
When you give me your heat
You're always leaving
Me wanting more
You bring fuel to the flame
Got me going insane
Like I never have done before
I don't need another
Reason to fall apart

Girl you are more than enough
I can't take another minute you've
Captured my heart
You got me begging please
Nathalie (can't you see)
What you're doing to me
Run for cover, give me shelter
Natalie (can't you see)
You are all that I need
Be my lover, undercover
So if you want me come
And get me
I'll be your shelter
From the storm
Promise that you
Will stay forever
We belong together,
It is now or never
So how do we go
From friends to lovers
I wanna make you stay forever
Freeze you in this moment
Let the wait be over now
Nathalie (can't you see)
What you're doing to me
Run for cover, give me shelter
Natalie (can't you see)
You are all that I need
Be my lover, undercover
Nathalie,
Nathalie,
Nathalie,
We belong together,
It is now or never
