

# Can't wait – Anna yvette

If I had known then what I know now  
I wouldn't have said what I said  
I took the long road, thought I'd be better on my own  
Sometimes what's right is wrong instead

Cause I was too young  
And I didn't understand that  
You were my one  
And I can't wait to see you again

I can't wait, I can't wait, I can't wait  
I can't wait, I can't wait, I can't wait

And I'm just pleading when your heart's bleeding  
And all you can see is red  
Til you discover it is within each other  
To forgive and make amends

If I had known then what I know now  
I took the long road, thought I'd be better on my own  
Sometimes what's right is wrong instead

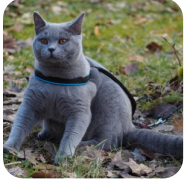

Cause I was too young  
And I didn't understand that  
You were my one  
And I can't wait to see you again

Oooh  
I can't wait, I can't wait, I can't wait

Cause I was too young  
And I didn't understand that  
You were my one  
And I can't wait to see you again  
I can't wait, I can't wait, I can't wait  
I can't wait, I can't wait, I can't wait

Oooh oooooh And I can't wait to see you again
