That's Us – Anson Seabra

I shoulda known it wouldn't
happen 'cause it wasn't right
I shoulda known it 'cause it
happens every goddamned time
Almost thought we could've been something
Almost thought we could have tried, but
It didn't happen so I need you
to get out my life
But the other night I had you in my head,
called you on the phone
Want you stealing my time even
though I said I wanna be alone
Oh, and I should know this could never work
Oh, this could never end well
Know it's only human but I never learn,
I want you for myself
[Chorus]
I can take the fall, the pain, the pleasure
And you can take it all, for worse, or better
But oh, what if we're wrong?
What if we're not all that we thought?
Then we won't make it along
But hey, I guess that's us
[Verse 2]
We couldn't help it but you know
that doesn't make it right
You say I'm selfish but
I know you felt the same inside
Everybody says it's all okay,
everybody says we're fine but
Guess someone else is what you
need to make you feel alright
But tomorrow night I'll probably call a cab,
show up at your door
Love you in the night time,
leave you in your bed, cold and wanting more

Oh, and I should know this could never work
Oh, this could never end well
Know it's only human,
but I never learn, I need you for myself
[Chorus]
I can take the fall, the pain, the pleasure
And you can take it all, for worse, or better
But oh, what if we're wrong?
What if we're not all that we thought?
Then we won't make it along
But hey, I guess that's us
I can take the fall, the pain, the pleasure
And you can take it all, for worse, or better
But oh, what if we're wrong?
What if we're not all that we thought?
Then we won't make it along
But hey, I guess that's love
