Devill walks - Anti Tank Nun

Everyone could see him They knew he felt at home His dazzling ways would rim Moscow, Berlin, Rome High time to go about His caption ragines A loud "hallo !!!" rang out First from his bag of tricks The night is cold and long Behind these bars I'm locked The sound outside is strong The devil takes his walk The mob just roared with joy As always when appeased He played them like a toy A coin rain made'em pleased The mob wanted revenge Stifled with agitation Whenever the law sleeps There is retaliation The night is cold and long Behind these bars I'm locked The sound outside is strong The devil takes his walk It's planned from A to Z He serves'em tabs and snow The savages just spread East and west they go It was a ghastly night The dawn ain't much to see The devil walks on site I know just what will be The night is cold and long Behind these bars I'm locked The sound outside is strong The devil takes his walk
