

# **(I would) Die For You – Antique**

Loving you the way I do  
And all this things that we've been through  
Made me sad, made me mad  
Finally then, we're apart,  
There's only sorrow in my heart,  
Hard to say I'm okay

'Cause I would die for you,  
Look into my eyes and see it's true,  
Really I could never lie to you  
Just to make you see that no one else  
Could ever love you like the way I do

Die for you,  
Look into my eyes and see it's true,  
Really I could never lie to you  
Just to make you see that no one else  
Could ever love you like the way I do

Now that you are here no more  
The nights are longer than before  
Hard to say I'm okay

'Cause I would die for you,  
Look into my eyes and see it's true,  
Really I could never lie to you  
Just to make you see that no one else  
Could ever love you like the way I do

Die for you,  
Look into my eyes and see it's true,  
Really I could never lie to you  
Just to make you see that no one else  
Could ever love you like the way I do

'Cause I would die for you
