## Near - Apoptygma Berzerk

You are reaching your goals But I'm still trapped inside of mine Before the break of day You will be gone and far away In solitude With no place to run or hide I hear my own mind cry And I fall just to see you rise And I will go down on my knees And pray the best that I can I want you to be near And I will go down on my knees And try to make you understand My deepest fear Aaaaaaaa Aaaaaaaa Aaaaaaaa Aaaaaaaa With pain in my heart I will travel on my own To that place inside Where I can be alone In solitude With no place to run or hide Again I hear this voice cry out And I fall just to see you rise And I will go down on my knees And pray the best that I can I want you to be near And I will go down on my kness And try to make you understand My deepest fear In solitude With no place to run or hide I hear my own mind cry And I fall just to see you rise

And I will go down on my knees
And pray the best that I can
I want you to be near
And I will go down on my knees
And try to make you understand
My deepest fear
