## Goodbye - Apparat

Please put me to bed

And turn down the light

Fold down your hands

Give me a sign

Put down your lies

Lay down next to me

Don't listen when I scream

Bury your doubts and fall asleep

Find out

I was just a bad dream

Let the bed sheet

Soak up my tears

And watch the only way out disappear

Don't tell me why

Kiss me goodbye

For Neither ever, nor never

Goodbye

Neither ever, nor never

Goodbye

Neither ever, nor never

Goodbye

Goodbye
