

# Silhouette – Aquilo

Stood at the cold face  
Stood with our backs to the sun  
I can remember being nothing but fearless and young  
We've become echoes, but echoes, they fade away  
We've fallen to the dark as we dive under the waves  
(I heard you say)

The devil's on your shoulder  
The strangers in your head  
As if you don't remember  
As if you can forget  
It's only been a moment  
It's only been a lifetime  
But tonight you're a stranger  
Some silhouette

Let's go out in flames  
So everyone knows who we are  
'Cause these city walls never knew  
That we'd make it this far  
We've become echoes, but echoes are fading away  
So let's dance like two shadows, burning out a glory day

Devil's on your shoulder  
Strangers in your head  
As if you don't remember  
As if you can forget  
It's only been a moment  
It's only been a lifetime  
But tonight you're a stranger  
Some silhouette

Just hold me  
Just hold me  
Just hold me  
Just hold me

Devil's on your shoulder  
Strangers in your head  
As if you don't remember  
As if you can forget  
It's only been a moment  
It's only been a lifetime  
But tonight you're a stranger  
Some silhouette

Only been a moment  
It's only been a lifetime  
But tonight you're a stranger  
Some silhouette  
But tonight you're a stranger  
Some silhouette
