

# Believe in Me – ATB

It's been some time since 97  
When you chose to sail away  
Now take a seat and stay forever  
And make me stop counting the days  
Lately I heard you're doing well  
Though I don't know how that feels  
even know you happen doing well  
don't You happy and the smile  
Believe in Me - a a a a 4x  
Believe in me - after all  
Believe in me - and hear me call  
There's a world behind these walls  
that I just need to see  
Believe in me  
Believe in me - after all  
Believe in me - and hear me call  
There's a world behind these walls  
that I just need to see  
Believe in me  
Every dream that had been shattered  
Disappears without a trace  
Now that I've found what really matters, yeah  
After you had gone away  
Even though you had been doing well  
Don't you hide behind a smile  
And just believe in me a a a a 4x  
Believe in me - after all  
Believe in me - and hear me call  
There's a world behind these walls  
That I just need to see  
Believe in me  
Believe in me a a a a 4x
