

# I'll Be Good – Bad Boys Blue

When you're next to me  
It feels so heavenly  
Ask me anything  
And baby I get chills  
Yes I will  
You came and turned me upside down  
Oh baby you turned my life around  
Around in just one night  
And I'll be good  
I'll be good  
I'll be true  
Whatever you might need I would do  
And I'll be good  
And I swear  
I'd be there  
Every single minute in my life  
And I'll be good  
I'll be good  
If I could  
I'd get for you the stars from above  
And what I do  
I just do it for you  
I'm longing for your love  
I want you right here by my side  
I want your love until the end of time  
And I'll be good  
Be good to you  
And you know it's true  
You control my mind  
Stick inside my head  
That's why I have no say  
My heart decides instead  
But I feel glad  
You came and turned me upside down  
Oh baby you turned my life around  
Around in just one night

And I'll be good  
I'll be good  
I'll be true  
Whatever you might need I would do  
And I'll be good  
And I swear  
I'd be there  
Every single minute in my life  
And I'll be good  
I'll be good  
If I could  
I'd get for you the stars from above  
And what I do  
I just do it for you  
I'm longing for your love  
I want you right here by my side  
I want your love until the end of time  
And I'll be good  
Be good to you  
And you know it's true  
And I'll be good  
I'll be good  
I'll be true  
Whatever you might need I would do  
And I'll be good  
And I swear  
I'd be there  
Every single minute in my life  
And I'll be good  
I'll be good  
If I could  
I'd get for you the stars from above  
And what I do  
I just do it for you  
I'm longing for your love  
I want you right here by my side  
I want your love until the end of time  
And I'll be good  
Be good to you  
And you know it's true
