

The Power Of The Night – Bad Boys Blue

We are in danger
I feel it deep down in my soul
Lost in emotions
Sometimes we seem to lose control
Oh, baby, I'm fallin'
Fallin for you and for your love
Want it forever
I can't get enough
It's the power of the night
It's the power of belief
It's now or it's never
Let's do it together
The power of the night
It's the power of the dark
Beware of the night
Hold on to your heart
Baby, come closer
Heat up my body with your eyes
And when you touch me
Oh, I can feel the fever rise
Just let it happen
'Cause burning hearts can't slip away
Maybe we're crazy
Babe, that's okay
It's the power of the night
It's the power of belief
It's now or it's never
Let's do it together
The power of the night
It's the power of the dark
Beware of the night
Hold on to your heart
Baby, I'm fallin'
Fallin' for you and for your love
Want it forever
I can't get enough

It's the power of the night
It's the power of belief
It's now or it's never
Let's do it together
The power of the night
It's the power of the dark
Beware of the night
Hold on to your heart
