

## Blame it on the summer – Basia

Day by day and night by night  
Love's a dream heaven sent  
I am yours and you're mine  
What more can I pray for  
But every minute, every hour  
I play a waiting game  
'Cause once again the spring is all around  
I know so well your smiling face  
That greets me every day  
You stand by me I stand by you  
All's good and well, so  
Day by day and night by night  
I play a waiting game  
'Cause my world will soon  
Be turning upside down  
In summer  
Blame it on the summer  
I can't help how summer makes me feel  
Blame it on the summer I don't care if  
What I feel is real  
Blame it on the summer  
I can't explain what summer makes me do  
I want to break away and fly away  
'Cause summer makes me run away from you  
Years go by a playful time  
Resign come what may  
You keep on loving me  
And I still keep on wishing  
'Cause every hour here in silence  
The game remains the same  
And the summer makes my  
World turn upside down  
Oh, summer  
Blame it on the summer  
I can't help how summer makes me feel  
Blame it on the summer I don't care if

What I feel is real  
Blame it on the summer  
I can't explain what summer makes me do  
I want to break away and fly away  
'Cause summer makes me run away from you  
I want to break away and fly away  
Summer makes me run away  
Summer makes me run away  
Summer makes me run away  
Summer makes me run away from you  
Blame it on the summer  
I can't help how summer makes me feel  
Blame it on the summer I don't care if  
What I feel is real  
Blame it on the summer  
I can't explain what summer makes me do  
I want to break away and fly away  
'Cause summer makes me run away from you  
Blame it on the summer  
Blame it on the summer  
Blame it on the summer  
Blame it on the summer  
Blame it on the summer  
I want to break away and fly away  
Blame it on the summer  
'Cause summer makes me run away from you  
Blame it on the summer From you
