

Don't Like Anybody – Bella Poarch & 6arelyhuman

Oh

I didn't come to find the one

I didn't even wanna come

But in the corner of the room,

I caught your eye

I don't mean to take it fast

But you got me losing track,

Yeah

Heart is beatin' off the graph

Up and down, it's back to back,

Yeah

I really just like you,

I don't like anybody

How could I find my boo

Inside a crowded party?

I really just like you,

I don't like anybody

I don't like anybody,

You're not like anybody

I really just like you,

I don't like anybody

How could I find my boo

Inside a crowded party?

I really just like you,

I don't like anybody

I don't like anybody,

You're not like anybody

I don't like them like you,

We could stick just like glue

Baby, only if you knew

All the things I would do

Trust me, you have no clue

'Cause I can make you feel so brand new

So make up your mind, baby,

Is it wrong or is it right?

You said you hate everyone else,
But that's alright, yeah, that's alright
You got me staying up all the time,
Yeah, in the night
It's okay because you always say,
Ay

I really just like you,
I don't like anybody
How could I find my boo
Inside a crowded party?

I really just like you,
I don't like anybody
I don't like anybody,
You're not like anybody

I really just like you,
I don't like anybody
How could I find my boo
Inside a crowded party?

I really just like you,
I don't like anybody
I don't like anybody,
You're not like anybody

Up, up, up
You really fill my
Cup, cup, cup
Come on and fill it

Up, up, up
Feel like we just begun
Feel like we just begun
You're not like anybody
