

# Love Me Forever – Beyond the Black

Love me forever or not at all  
End of our tether, backs to the wall  
Give me your hand, don't you ever ask why  
Promise me nothing, live 'til we die  
Everything changes, it all stays the same  
Everyone guilty, no one to blame  
Every way out, brings you back to the start  
Everyone dies to break somebody's heart  
We are the system, we are the law  
We are corruption, worm in the core  
One of another, laugh 'til you cry  
Faith unto death or a knife in your eye  
Everything changes, it all stays the same  
Everyone guilty, no one to blame  
Every way out, brings you back to the start  
Everyone dies to break somebody's heart  
Love me or leave me, tell me no lies  
Ask me no questions, send me no spies  
You know love's a thief  
Steal your heart in the night  
Slip through your fingers,  
You best hold on tight  
Everything changes, it all stays the same  
Everyone guilty, no one to blame  
Every way out, brings you back to the start  
Everyone dies to break somebody's heart
