

Love Me Forever – Beyond the Black

Love me forever or not at all
End of our tether, backs to the wall
Give me your hand, don't you ever ask why
Promise me nothing, live 'til we die
Everything changes, it all stays the same
Everyone guilty, no one to blame
Every way out, brings you back to the start
Everyone dies to break somebody's heart
We are the system, we are the law
We are corruption, worm in the core
One of another, laugh 'til you cry
Faith unto death or a knife in your eye
Everything changes, it all stays the same
Everyone guilty, no one to blame
Every way out, brings you back to the start
Everyone dies to break somebody's heart
Love me or leave me, tell me no lies
Ask me no questions, send me no spies
You know love's a thief
Steal your heart in the night
Slip through your fingers,
You best hold on tight
Everything changes, it all stays the same
Everyone guilty, no one to blame
Every way out, brings you back to the start
Everyone dies to break somebody's heart
