

# Number One – Bleach

If you wanna see some action  
Gotta be the center of attraction  
Make sure that they got their eyes on you  
Like the face that you see on every magazine  
Be the focus of attention  
Be the name that every one must mention  
Come out from the shadows, it's your time  
'Cos tonight is the night for everyone to see  
You know that this is where you gotta be  
It must be your destiny  
(Sensational)  
And you believe that  
This is what you waited for and  
It's you that they all adore  
So baby  
Now you feel like number one  
Shining bright for everyone  
Living out your fantasy, the  
Brightest star for all to see  
Now you feel like number one  
Shining bright for everyone  
Living out your fantasy, you're the  
Brightest star there's ever been  
Feel the heat that's all around you  
Flashing lights and ecstasy surround you  
Everybody wants a piece of you  
You're the queen of the scene,  
Living in a dream  
You know that this is where you gotta be  
It must be your destiny  
(Sensational)  
And you believe that  
This is what you waited for and  
It's you that they all adore  
Now you feel like number one  
Shining bright for everyone
