

Number One – Bleach

If you wanna see some action
Gotta be the center of attraction
Make sure that they got their eyes on you
Like the face that you see on every magazine
Be the focus of attention
Be the name that every one must mention
Come out from the shadows, it's your time
'Cos tonight is the night for everyone to see
You know that this is where you gotta be
It must be your destiny
(Sensational)
And you believe that
This is what you waited for and
It's you that they all adore
So baby
Now you feel like number one
Shining bright for everyone
Living out your fantasy, the
Brightest star for all to see
Now you feel like number one
Shining bright for everyone
Living out your fantasy, you're the
Brightest star there's ever been
Feel the heat that's all around you
Flashing lights and ecstasy surround you
Everybody wants a piece of you
You're the queen of the scene,
Living in a dream
You know that this is where you gotta be
It must be your destiny
(Sensational)
And you believe that
This is what you waited for and
It's you that they all adore
Now you feel like number one
Shining bright for everyone

Living out your fantasy, the
Brightest star for all to see
This is what you waited for and
It's you that they all adore
Now you feel like number one
Shining bright for everyone
Living out your fantasy, the
Brightest star for all to see
Now you feel like number one
Shining bright for everyone
Living out your fantasy, you're the
Brightest star there's ever been
