

Baby baby – Blue Cafe

I wanna feel I'm for you
I wanna know I'm just for you
I wanna taste life with you
I wanna see myself with you

You let me be who I am
You make feel I'm the best, baby
Please let me be with you baby
I wanna scream out your name

Baby, baby, baby like you
There's no other man like you
Oh baby, baby, I love you
There's no other man like you

I wanna know what is a life
To be the one, to be your wife
I wanna make you feel fine
So let me care for you right now

You let me be who I am
You make feel I'm the best, baby
Please let me be with you baby
I wanna scream out your name

Baby, baby, baby like you
There's no other man like you
Oh baby, baby, I love you
There's no other man like you

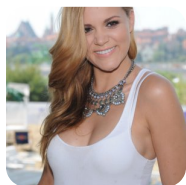

Baby, I need you so
You know, I'm gonna get you
Honey, I need so, want you so
Baby, baby I know

Baby, baby, baby like you

There's no other man like you
Oh baby, baby, I love you
There's no other man like you

(steppin' away with you)
I wanna scream out your name
(steppin' away with you)
I wanna scream out your name
(steppin' away with you)
I wanna scream out your name
(steppin' away with you)

There's no other man like you
