

Shadows From Nowhere – Blue Gas

When you walked across the crowded
Midnights, where
A neighbor held an empty chair
Chase of solitaire
Now I see your smiling fading photographs
And how I laughed by uselessness
To wipe away a year
As the music from the café played in town
I watched you turn your gaze from mine
Passing us away
And I switch my mind to memory again
The days are cold and you pretend
That you didn't hear
And then I stop stop
Shadows from nowhere
Calling me
I can't stop, stop
Shadows from nowhere
I look but you're not there
I can't stop, stop
Shadows from nowhere
Calling me
I can't stop, stop
Shadows from nowhere
In chase of you as if you care
When the nights pass by too slowly
To be shared
I look for clues you're in the air
The scent you always wear
On the mirror lipstick tales of false affairs
Through words in red only declare
Another souvenir
Lying greens of summer colors in your hair
But under covers you're elsewhere
Second handed spare
So I put your picture in a different frame

And hope that you won't look the same
Shadows disappear
I can't stop stop
Shadows from nowhere
Calling me
I can't stop stop
Shadows from nowhere
I look but you're not there
I can't stop, stop
Shadows from nowhere
Calling me
I can't stop, stop
Shadows from nowhere
In chase of you as if you care
Ooooooh
Chasing shadows
I can't stop, stop
Shadows from nowhere
Ooooooh
Chasing shadows
I can't stop, stop
Shadows from nowhere
