

# ULTRAnumb (Acoustic) – Blue Stahli

Three, two, one  
You want it full frontal, over-stimulation  
So say a benediction  
For a new addiction  
In voyeuristic overdrive  
This is the new flesh  
This is the open door  
We've got everything you wanted  
Violated  
So degraded  
The show has just begun  
Dominated  
By all you hated  
This will make you ULTRAnumb  
Three, two, one  
Reality's a plague  
We're the medication  
A new manipulation  
Oversaturation  
Take advantage of what you deny  
So step right up and see  
The possibilities  
We are everything you wanted  
Violated  
So degraded  
The show has just begun  
Dominated  
By all you hated  
This will make you ULTRAnumb  
One  
Confession  
Is such  
Perfection  
Your sweet  
Repression  
Can't hide

Who you really are  
Say you love it  
Say you hate it  
Doesn't matter 'cause you're all the same  
Say you want it  
Say you need it  
Come and get it 'cause we love the shame  
Say you love it  
Say you hate it  
Just another one to suck the fame  
Don't pretend that you're better than this  
Malevolence goes both ways  
Violated  
So degraded  
The show has just begun  
Dominated  
By all you hated  
This will make you ULTRAnumb  
Violated  
So degraded  
The show has just begun  
Dominated  
By all you hated  
This will make you ULTRAnumb
