

# It's all over – Blue System (Dionne Warwick & Dieter Bohlen)

I just can't hide my feelings  
It's just the way i am  
This love has such a meaning  
We'll make it if we can  
Tell me baby, where did we go wrong  
Sooner or later we'll end up on our own  
It's all over, all over, all over again  
You said to me, sorry,  
Can't we just be friends  
It's all over, all over, it happened again  
No time to ignore it, we'll come to the end  
Tomorrow is forever  
Love is a sacrifice  
There'll never be a never  
Halfway to paradise  
Tell me baby, why you'll say goodbye  
Just for the maybe,  
Let's give it just one more try  
It's all over, all over, all over again  
You said to me, sorry,  
Can't we just be friends  
It's all over, all over, it happened again  
No time to ignore it, we'll come to the end  
It's all over, all over again  
You said to me, sorry,  
Can't we just be friends  
It's all over, all over,  
Just look what you've done  
Oh, sooner or later, we're all alone  
We're all alone
