

# If There Is a God in Heaven – Blue System

If there is a God in Heaven  
If there is a new generation  
I was only a number  
I'm the king of misery  
I was searching for a lonely nights  
Oh, in a fool's man Paradise  
Keep this moment forever  
But a broken heart can't smile  
I was looking like hypnotized  
'God Is Love' will turn to lies  
If there is a God in Heaven  
He will show me the way to your heart  
If there is a new generation  
He will tell me the way we can start  
If there is a God in Heaven  
Can't you see what you're doing?  
Oh, the wearied broken soul  
I was stranded in nowhere land  
I was missing a helping hand  
This goodbye is forever  
Wrap your trouble in your dreams  
Are we livin' in memory  
I would search in my destiny  
If there is a God in Heaven  
He will show me the way to your heart  
If there is a new generation  
He will tell me the way we can start  
If there is a God in Heaven  
If there is a God in Heaven  
He will show me the way to your heart  
If there is a new generation  
He will tell me the way we can start  
If there is a God in Heaven  
He will show me the way to your heart  
If there is a new generation  
He will tell me the way we can start

If there is a God in Heaven  
He will show me the way to your heart  
If there is a new generation
