

If not with you – Chris Klafford

If not with you then for you my love
While I'm breathing, you'll never go
Feels like living with half of my heart
But I'm trying,
Trying to keep my head up
I still sleep on my side of our bed
Though you're gone,
You're not leaving me yet
Keep you here for as long as I can
And I'm dying, dying to see you again
I know you'd want me to
Be someone without you
Ref But I can't wait
To be with you darling Someday,
I'll meet you on those golden plains
Until then I'd say
If not with you then for you my love
If not with you then for you my love
Going out on myself every night
Trying to feel something different but I
I can't take the feeling,
That nothing is right
I ain't the same without you by my side
I know you don't want me to
Be someone without you
But I can't wait
To be with you darling Someday,
I'll meet you on those golden plains
Until then I'd say
If not with you then for you my love
If not with you then for you my love
The light has gone out of my life
Stuck in the past
Frozen in time
Everyone says I'll be fine
One of these days

But I can't wait
To be with you darling Someday,
I'll meet you on those golden plains
Until then I'd say
If not with you then for you my love
If not with you then for you my love
Even if I'd wait
I will live for you
Even not with you
I will live for you, darling
Every friend that I'd say
If not with you then for you my love
