

Everytime I Close My Eyes – Chris Norman & Nino De Angelo

I see my baby everytime I close my eyes,
And when my baby's close to me,
Oh, my time flies
And if you knew, my baby,
You would fall too
Every time I close my eyes,
Every time I visualise,
The way that she holds me,
The way that she needs me,
There's something in the way that she smiles
Every time I close my eyes,
Every time I fantasise,
The way that she touches me,
To know that she loves me,
Makes me feel I'm touching the skies
With each and every,
Breath I take she's always there,
Oh, no other girl could,
Ever break this love affair
What can I do, oh Baby, Baby,
Babe, I can tell you
Every time I close my eyes,
Every time I visualise,
The way that she holds me,
The way that she needs me,
There's something in the way that she smiles
Every time I close my eyes,
Every time I fantasise,
The way that she touches me,
To know that she loves me,
Makes me feel I'm touching the skies
She's my woman, my everything,
I can feel my heart going crazy,
I'm a fool for her love and I know,
That I would die for my babe

My heart won't forget,
Even when we're so far apart
I cry a river of tears for her love,
Till I can keep her save in my heart
Every time I close my eyes,
Mhmmmmmmmm,
The way that she holds me,
The way that she needs me,
There's something in the way that she smiles
Every time I close my eyes,
Every time I fantasise,
The way that she touches me,
To know that she loves me,
Makes me feel I'm touching the skies
I see my baby everytime I close my eyes,
And when my baby's close to me,
Oh, my time flies
